

SUBSCRIPTION LEAK FINDER MINI KIT

SUBSCRIPTION LEAK FINDER MINI KIT

A printable mini kit for finding recurring charges, downgrades, and forgotten subscriptions.

Price position: \$5.

Audience: households, renters, students, couples, and solo earners in Tier 1 markets who want a simple money reset.

WHAT THIS IS

This is not a finance course. It is a fast audit kit for listing every recurring payment, choosing what to cancel or downgrade, and giving next month more breathing room.

HOW TO USE IT

Print the PDF or open the HTML file. Fill one section at a time. Keep the first pass rough. The value comes from making a decision, not making the worksheet pretty.

SUBSCRIPTION SWEEP

- Check bank statements for the last 60 days.
- Write every recurring charge, even the small ones.
- Mark each charge as keep, cancel, downgrade, or review later.

VALUE CHECK

- Ask if you used it in the last 30 days.
- Ask if a free version would do enough.
- Ask if the plan can be shared, paused, or reduced.

CANCEL SCRIPT

- Use the included short script when a service pushes back.
- Record confirmation numbers or emails.
- Set a reminder to verify the charge is gone next cycle.

NEXT-MONTH RULE

- Move the saved amount into debt, emergency cash, or a specific bill.
- Do not let the savings disappear into random spending.

WORKSHEET

Use the lines below for the first pass.

- Service: _____
- Monthly cost: _____
- Last used: _____
- Keep/cancel/downgrade: _____
- Action date: _____
- Confirmation: _____
- Next charge date: _____
- Savings target: _____

SUPPORT NOTE
